CLEANING UP OF BASEMENTS AND ATTICS

Country: Czechoslovakia

Subject: Cleaning up of basements and attics.

50X1-HUM

[redacted] groups of volunteers have been collecting rubbish and debris which have cluttered up basements and attics. Apartment tenants are required to deposit them on the sidewalk, in front of their residences.

The officialx reason given for this general clean-up is a large-scale campaign against rats.

Note: Perhaps the reason is to remove highly inflammable materials from attics, to make room in basements for shelters, and to recover non-ferrous metals.
